

ShowClause by Caseflow

Your "Out of the Box" Clause Library

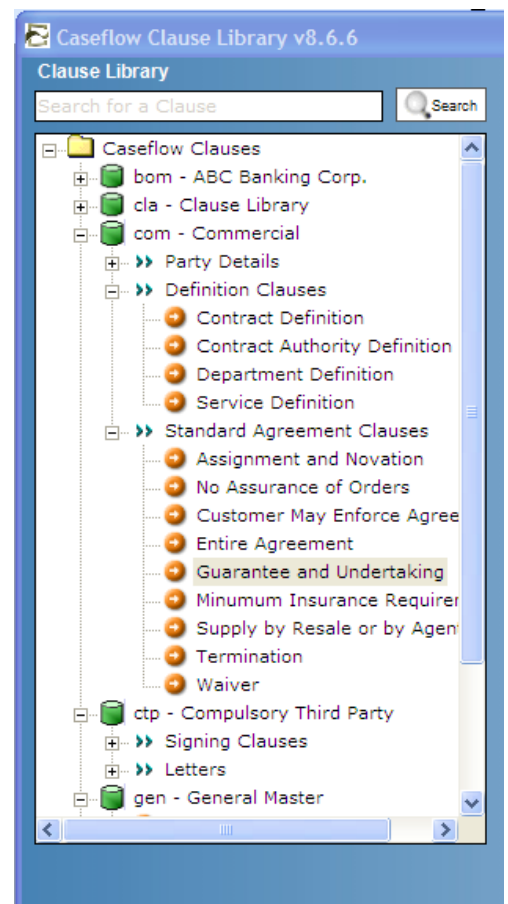

ShowClause is the entry level of the Caseflow technology suite that delivers an Enterprise-Wide Clause Library through a simple Microsoft Word add-in.

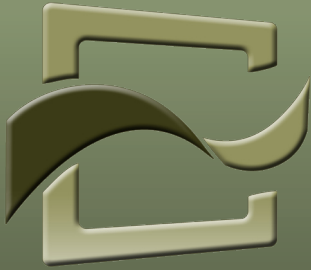

The management, use and deployment of standard clauses throughout a firm is always the subject of much debate. The one undeniable fact is that whatever system is employed, it must be scalable, easy to use and easy to administer.

ShowClause from Caseflow is the solution that also forms the basis of the clause functions throughout the Caseflow product range.

Some of the key features of ShowClause include;

- ✓ Enterprise wide clause library with a simple to use, intuitive interface
- ✓ Centralised administration
- ✓ Minimal User and Administration training, can be up and running very quickly
- ✓ User defined tree structure, up to 5 levels deep giving ultimate flexibility
- ✓ Suitable for use in every Department or Practice Group
- ✓ Retains styles and paragraph numbering etc
- ✓ Clauses can reside in your DMS or on a network server
- ✓ Structure your clauses into areas of law and practice groups
- ✓ Share clauses across practice groups

Caseflow - Show Clause

Your "Out of the Box" Clause Library

- ✓ Scalable from small to very large firms
- ✓ Supports WAN implementation and all versions of Word XP and above
- ✓ Requires SQL Server, however Show Clause will run on SQL Express (free edition)
- ✓ Preview a clause using the **Quick View Tab** before inserting into your document
